Who We Are
NJMEP is a private, not-for-profit organization that enhances the competitiveness of New Jersey’s manufacturers through a focus to include services and best practices from the National Institute of Standards and Technology (NIST). NJMEP is part of the national Manufacturing Extension Partnership program that believes, given the proper support, manufacturers can challenge themselves and grow strategically, improve profitability, and create competitive advantages.

Our Purpose
Manufacturing is critical to our growth and economic success as a state and as a country. Whether it’s striving to return manufacturing back to New Jersey from another country, or help existing New Jersey manufacturers overcome some of the organic challenges of commerce, we know that together with the manufacturing community our combined success will mean increased jobs and a healthier economy to New Jersey and to America.

What We Do
NJMEP works with manufacturers to fully understand their current situation, effectively respond to their needs, and implement optimal solutions. We work on process efficiency improvements as well as growth, technology, and innovation strategies. Each client presents a unique combination of technology, organizational structure, and workplace culture — and as such, company’s business objectives and related barriers to success also differ widely.
Welcome to our NJMEP Legislative Directory. We want to help you connect with your state and federal representatives on issues important to you, information and services to assist your business along with getting in contact with state legislators and federal representatives in your district.

If you are looking for more information, would like to schedule a meeting, or schedule a tour at your location for a representative please reach out to Constantina Meis at cmeis@njmep.org or call at 973-998-9801.

2019-2020 LEGISLATIVE DIRECTORY

DON’T FORGET TO CHECK OUT OUR NJMEP EDUCATIONAL RESOURCE DIRECTORY FOR MANUFACTURERS

The Educational Resource Directory is in searchable PDF form and may be downloaded from the NJMEP website via: njmep.org/educational-resource-directory/

This is a detailed guide aimed at helping manufacturers across the state identify and connect with resources in the fields of education (secondary and post-secondary) and government (state and local) that might be useful to them. In it, users will find information on accessing training programs, workshops and other forms of assistance, in most cases including specific contact names and phone numbers or email addresses.
